You did a good job!

Great job! Your speech was great!

The "z" in he's must be practiced more however you looked very confident. Your memorization was also perfect!

Your speech was outstanding!

Your intonation was good and your pronunciation was clear and beautiful! Your volume made your speech easy to listen to. Your content was easily understandable as well as making your pace perfect!

Your intonation was good and you had good breaks between sentences however you could add more gestures to make your points better.

Your speech was good!

Your speech was great! Great job!

Please keep practicing your pronunciation of “themselves” and “lot of.” I like the content of your speech and it was clear to understand. Great memorization of your speech but try to avoid using so many “like” in your speech.

Excellent job on your speech. Your speech was very good but a little long winded. Interesting speech though.

Your intonation was great! You could add more variety to your gestures though, which would make it a lot smoother. But good job overall.

Your English is perfect, including your pronunciation, which made your speech easy to listen to. Your volume was perfect as well but your content was difficult to understand. You expressed yourself easily however and we learned many things.

Really good speech! I thought it was quite interesting.

Great job!! Your speech was great!

It was clear to understand your speech and you look very confident speaking.

Outstanding job! Your message was very important and thank you for sharing it with us!

Your English skills are really good! Please keep telling people about your ideas and experiences! I think your points were people's kindness and schools value and we need more people to have a voice that speaks about your story. It was funny and but points out a very serious problem as well. Thank you for sharing your story.

Your pronunciation and volume were great! You look very natural and it was a nice speech. Good job!
